

DOUBLE CRIME.

Banker Borden and Wife Hacked to Death

In Broad Daylight With a Hatchet at Fall River, Mass.

The Ghastly Night Is Witnessed by an Organized Detective. The Bodies Found at 11 o'clock Thursday morning.

FALL RIVER, Mass., Aug. 5.—Andrew J. Borden, president of the Union Savings Bank, and his wife were butchered in broad daylight Thursday. The bodies were found in their residence, No. 92 Second street, at 11 o'clock Thursday morning. Banker Borden was 70 years of age, hale, hearty, and it was his custom to return home from the bank at about 10:30 a. m. and take a walk before his noonday meal. The house with him lived two daughters by Mr. Borden's first wife, one of whom, Emma, is away from home on a visit, and the other, Elizabeth, was at home Thursday in the house where she was suddenly and horribly orphaned.

There does not appear to have been any noise, no outcry, no blood-stained murderer was seen leaving the place; people were passing in the street, and the folks next door have seen no one enter or leave the Borden residence. The weapon used is missing. The wounds show that it was a hatchet. The first of the blows was on the head, many on the head of the victim, were from the edge of the hatchet, and the finishing blows were with the back of it.

During the morning Mrs. Borden received a postal card asking her to call upon some friend who was in the city. She went out, but did not find the person named. She then called on a servant girl, Bridget Sullivan, who was down stairs when Mr. Borden came in and said something about not feeling well. He changed his street coat for a more comfortable house coat, and laid down on the lounge in the sitting room. Bridget then went to the window and third story to wash the windows and knew nothing of the tragedy until called downstairs by the daughter, Elizabeth. Elizabeth was alone in the stairs when her father came in. And, after greeting him, she went into the back yard to attend to some gardening. She said she had not seen her father for a few moments when she thought she heard groans in the sitting-room. She went in and found her father murdered. She attempted for help and when the neighbors came in she fainted. The next inquiry was for Mrs. Borden. Why was she not down in the sitting-room? Elizabeth hurried upstairs to her mother's room, where she saw the banker's wife lying face down on the floor, dead, with her face and head covered with frightful wounds.

At a late hour Thursday night police inspectors rest upon persons connected with the family, particularly on John W. Morse, the brother-in-law of Mr. Borden by his first marriage; also the daughter, Lizzie, who is now in the city, and covered the body of the father. Morse came here from Hastings, Ia., two years ago. He became very intimate with Mr. Borden, and the latter's daughter, and spent a great portion of his time with them.

JEFFERSONVILLE, Ind., Aug. 5.—The three-months child of Dr. E. R. Vest, residing in New Albany, appeared to be slightly ill. The father not thinking anything serious was the matter carried the child to the residence of Dr. Rodger's office, on Main street, two blocks from the parsonage. The child became quiet in a moment after Mr. Vest left home. The mother, being ignorant of the circumstance, and when he entered the office an examination showed that the little one was dead and that the father had been carrying a corpse.

The Prize Snake Slayed.
COLUMBIAN, O., Aug. 5.—A Clinton township farmer, who made a bet and caused all competitors to take a back seat. The farmer has been missing lambs, little pigs, chickens, etc., for some weeks, and organized a vigilance committee. They claim to have found a monster serpent as large as a hay wagon, and as long as a hay wagon. It killed the snake and carried it away in a locomotive. The serpent escaped.

Mrs. Harrison's Condition Serious.
WASHINGTON, Aug. 5.—Telegrams received at the white house from Loom lake announce that Mrs. Harrison's condition is not improving to the extent anticipated, and, indeed, it is said their tenor is such as to cause the president great uneasiness. It is expected that the president will leave Washington for Loom lake as soon as Congress adjourns.

PITTSBURGH, Aug. 5.—Thursday evening information was made by Alderman Reilly, of this city, against fifteen participants in the riot at Duquesne. The constables will endeavor to make the arrests. The alderman refused to give the names of the accused or the names of the constables.

PARLIAMENT.

The New Organization Reassembled Thursday.

Gladstone Enthusiastically Greeted in the House.

Mr. Charles Dilke made a Funny Mistake in Selecting His Seat—Fatal Error in the House.

LONDON, Aug. 5.—The new parliament reassembled at 10 o'clock Thursday afternoon, the first member arriving before 9 o'clock in the morning in order that he might secure the seat he desired to occupy. Sir Charles Dilke, who was chosen to sit for the Forest of Dean division of Gloucestershire, came in at 11 o'clock and when selecting his seat by the custom prevailing of a member placing his hat upon the portion of the bench he wished to occupy, he inadvertently placed his hat upon the government side of the house. When his error was pointed out to him he at once placed it on the seat occupied by him when last a member of the house.

By 10 o'clock nearly all the opposition seats were filled. Meanwhile a number of members of the government who had reached the house and the historic search for gunpowder in the parliament buildings which had begun on the opening of every parliament since the attempt of Guy Fawkes and his plotters to blow up the king, his ministers and members of both houses, was the opening of parliament November 5, 1605, had been carried out.

When the house of lords assembled with the usual ceremony the gentleman usher of the Black Rod summoned the members of the house of commons to hear the reading of the commission for the new parliament.

Upon their return to the house of commons the members proceeded to the election of a speaker.

The proceedings Thursday were purely formal and no business will be transacted until next week.

The queen's council at which the speech from the throne is signed, will be held at Osborne Friday.

As Mr. Joseph Chamberlain, Mr. Dal- lous, the government leader in the house and other prominent members entered the chamber they were heartily cheered. Mr. Chamberlain made his appearance in the house soon after 2 o'clock and was given an enthusiastic reception. The Irish members rose in a body, waving their hats and cheering. They were joined in these demonstrations by the liberals. When Mr. Gladstone had taken his seat he was surrounded by a crowd of members of the house, irrespective of party, all anxious to congratulate him and shake his hand.

Mr. Gladstone appeared to have entirely recovered from his recent indisposition.

Sir M. W. Ridley (conservative), member for the Blackpool division of Lancashire, moved that the Right Hon. Arthur Balfour, who was speaker of the last house, be re-elected for the new body. The motion was seconded by Mr. Gladstone and Mr. Pease and was declared to have been re-elected.

Somerset Quoted.
PHILADELPHIA, Pa., Aug. 5.—The Iron Hall Building Co. had its regular yearly meeting at 1317 Arch street, this city, and elected officers for the ensuing year.

The meeting was largely attended and lasted until long after midnight. There was some close voting, which resulted in the defeat of Freeman D. Somers for reelection for president, although he was re-elected a trustee. There were thirty candidates, of whom fifteen elected members of the board of directors.

Of the women stockholders attended, but the two women candidates for president were defeated by the men. A. R. Blasser was elected vice president and Col. H. G. Williams was re-elected treasurer.

The Bicycle in War.
ST. LOUIS, Aug. 5.—Col. Young, in charge of Jefferson barracks here, in conjunction with the military police, is arranging for several new tests of the availability of bicycles in military maneuvers. As a thorough test of the wheel in war, it is intended to have horses cover the same territory and to get the difference in time between the two. It is also more likely that the big relay race will be arranged between St. Louis and Chicago.

EVANSTON, Ill., Aug. 5.—William Hodson, a master drayman and a member of a prominent family in this city, was shot and killed Thursday afternoon by his son Harry, with whom he had trouble. The deceased was an active politician and a generally well liked man.

SEVERAL LIVES LOST

By the Breaking of a Panned Up Culvert at St. Paul.

ST. PAUL, Minn., Aug. 5.—It now turns out that the torrent of water rushing down the hill Tuesday night resulted much more disastrously than at first reported. Three people were killed and seven badly injured. So far as is known the list of killed is as follows: Mrs. August Adams, Mrs. J. Horn Wm. Krueger. Those wounded include: Philip Stecher and five-year-old son, August Stecher, both of them from Paul Kekuk, Henry Ludwig, John Willrich.

The accident was the result of late heavy rains. The hill above Page street was a deep gully, the natural outlet of the water from the country above. A year ago Page street had been filled up across this gully, leaving a small culvert to carry off the ordinary water. This culvert had long ago been choked up, and the recent down had filled the culvert basin to the brim, making a lake two acres in extent and forty-five feet deep.

On Monday there appeared a crack three inches wide on the lower side of the fill but there was no thought of immediate danger. Suddenly last night the water began to rise and the rush of water over the top of the culvert down upon the lowland below. In ten minutes the whole thing was over and the work of rescue began. A general alarm of fire was sounded and all the ambulances and patrol wagons in the city were sent to the scene. The bodies of the three who were killed and the children were fished out of the debris and wrecks extending nearly half a mile. To add to the horror of the scene the water had carried away the gas pipe and left everything in darkness. It is possible that the extent of the loss of life may be increased.

KOLB WON BY COUNTIES.

But They Were Small, and Jones Had the Best of It.

MONTGOMERY, Ala., Aug. 5.—Kolb is making large claims and threatening a contest. No reports are official, as the count will not be made until Saturday.

HUNTSVILLE, Ala., Aug. 4.—Returns are in from all but six of the sixty-six counties. As the remote white counties are the least, and the remote black counties have steadily increased and Jones' majority being about 10,000, probably less. Kolb has carried about thirty-six counties and Jones thirty-three. Jones carried all the sixteen negro counties except three and perhaps four. Kolb seems to have carried the majority of the white vote, getting all the white republicans. Kolb's counts are small, only five of them having more than a dozen votes.

The county of Alabama is overwhelmingly straight democratic. In the senate 22 of 33 are supporters of Gov. Jones and the regular state ticket, and in the house 101 out of 109 members are of the same faith.

RIOT AT DUQUENNE.

Fifteen Men Injured—The Property Now in the Possession of the Sixteenth Regiment.

PITTSBURGH, Pa., Aug. 5.—A riot occurred at the Duquesne plant of the Carnegie Steel Co., Thursday, resulting in the injury of fifteen men. Foremen Millage and another workman were fearfully cut about the head and about a dozen others received bruises and many were knocked down.

The property is now in possession of the sixteenth regiment. Col. Hulings, who is in command, said: "Most of the Duquesne workmen having signified their intention of returning to work, a detachment of 40 was returned to report for repairs Thursday morning."

"As they approached the gate the mob met and drove them back with clubs. The nine deputies in charge of the men rushed to the spot, but were powerless. The men about to enter ran for their lives, and the deputies dispatched to guard the gate, who ordered the sixteenth regiment here."

Every cornfield within a radius of ten miles square is a complete loss and oats are ruined.
